## BLIND TO STATE WASTE FOR YEARS, BURZICHELLI KING OF RED-TAPE NOW SAYS HE CARES

Assembly Republican Candidate says Democratic Assemblyman John Burzichelli should be more concerned about the billions of dollars in state tax dollars that have been wasted under a succession of Democratic governors and the Democrat-controlled Legislature. He voted 95 times to raise taxes \$6.5 billion!

“I find it amusing that Assemblyman Burzichelli, who has ignored every documented case of state waste that Republicans uncovered since he has been in office, is suddenly so interested in red-tape and spending. Villare adds, “We have nearly \$50 billion in unfunded pension liability due to false promises and Burzichelli’s debt addiction. Now seniors and their children’s children must pay. The poor and middle class will suffer.”

“For years, Burzichelli was missing in action while Republicans were exposing billions of dollars in state waste and fiscal abuse. His silence was deafening when Republicans proposed ways to save billions of dollars in state spending. His overnight conversion to the cause is nothing short of miraculous. Villare explains that **“Burzichelli imposed the tax burden that is crushing the middle class in New Jersey,** But, if he wants to confess for his sins, I suggest he stop lying to the voters that he now understands their pain and wants to help. What was he doing when billions in tax dollars were squandered during his time in the Assembly? He might want to offer an explanation for his silence and why he made no effort to stop the waste in the last decade. Do you like the condition you find yourself living in under his rule? **Look what he did; not what he promises.”**

**Get rid of Burzichelli (Taxichelli). Vote him out of office.**
